

Artemis Center is committed to respecting the privacy of its financial and in-kind donors, whether the donation is made online, by mail or any other method. When you make a financial or in-kind donation, you provide your name and contact information. Financial donors provide standard payment information including, in many circumstances, credit card data. We protect your information in a variety of ways, as described below.

We use industry standard safeguards to protect your information. Many donors use credit cards for donations. We protect the security of credit card transactions using a number of measures such as encryption, access controls, network firewalls and physical security. These measures make it extremely difficult for anyone to intercept the credit card information you send to us. When we work with other companies to process credit card transactions, those companies also use encryption and other appropriate security measures.

We will not sell, share or trade our donors' personally identifiable information with any other entity, with the following exception. Artemis Center has vendors that assist with processing and managing donations and donor data. We give these vendors access to donor data. Our vendors are bound by strict confidentiality rules and are permitted to use donor data only to support Artemis Center operations.
